Dominoes Fall On«Tonight»

Domino King, Bob Speca, already a local celebrity, showed the country, and perhaps the world, that dominoes, Speca-style, are an art. Appearing on the "Tonight show," Bob spoke with Johnny Carson about his unusual hobby, and then proceeded to entertain millions across America,as seven thousand dominoes fell in succession.

"I wasn't as worried about the dominoes not working, as I was about looking right, not being nervous, and knowing what to say," Bob said later.

He arrived at the "Tonight Show" studio May 20, at 10:00 in the morning. At 10:30, working with a stage space seven by five yards, king began putting domino after domino after domino, just as he's done in his basement for his MN fans.

Five-and-a-half hours and seven thousand dominoes later, Bob went into the make up room, received a guide to the questions he'd be asked, and dressed for the show.

Taping began at 5:30 Pacific time, 8:30 Eastern time. Meeting Johnny Carson for the first time backstage, Bob was impressed with the man, the staff behind him, and the fantasy world of the studio. "Everybody was so nice," Bob commented. "It was fantastic.

Walking on stage, Bob claims he wasn't nervous, but he had to admit he was worried about the answers he'd give to Johnny's questions. Filmed without interruption, the "Tonight Show" broke for a commercial after Bob was interviewed. Afterwards,as millions of viewers looked on, Johnny Carson pushed over the first domino. Three minutes later, as the studio audience went wild, Johnny shook Bob's hand, thanked him for bringing his hobby to Hollywood, and repeated the fact that Bob's dominoes are amazing.

Being on the "Tonight Show" is an achievement that every performer dreams of. Bob and his performing dominoes came back to Broomall and received a hero's welcome. In school, Bob was congratulated constantly. Students applauded as he walked in the hallway, and friends and teachers looked at this national celebrity in a different light.

The show is opening opportunities for Domino King Speca. In the first two days after his appearance, Bob received offers for domino performances from Massachusetts, Connecticut, Texas, California and more.

Explosion Forces President's Resignation

Two Marple Newtown students, Student Council President Mark Salwitz and Sophomore Glenn Scarcelli have been suspended for ten days for causing an explosion in a toilet in the boys' bathroom near the English Resource Center on Friday, May 23, at 11:48 a.m., according to Principal William C. Capriotti.

The police were called and arrived on the scene approximately forty-five minutes after the explosion. Students in the vicinity were surprised at the amount of noise the explosion produced.

The explosion, caused by a home-made bomb sold to the two boys, shattered the toilet basin scattering ceramic remnants throughout the room. Since no one was in the room at the time, there were no injuries.

An unidentified group of faculty members and students turned in the pair to the administration on Tuesday, May 27. On June 11, the School Board will decide their punishment.

Salwitz resigned the Student Council Presidency after confessing. A new Student Council Presidential election will be held on Friday, June 6.

Ed Ottinger, an MN student suspected of constructing the bomb, had no part in the incident, Assistant Principal James Best says. Ottinger did admit to setting off a small explosion outside the industrial arts room, within an hour of the boys' room explosion.

BOARD VOTES COUNCIL

Following the suggestion of Board member Patricia Keates, the Marple Newtown School Board voted to establish an Advisory Council to examine drug abuse in Marple Newtown schools.

At the May 19 meeting the board approved the action as a first step in making the community aware of the drug problem. Board President Henry Clay appointed Ms. Keates and Board member Howard Farber to the council. He asked them to specify what it would do to control drug abuse and who else would be named to the Council.

"At least one member should be a student, and two members should be knowledgeable representatives from the Marple Newtown Police Departments," according to Ms. Keates.

In her presentation to the School Board,Ms. Keates outlined her six-point program which called for more parental involvement and teacher "Rap Sessions." Also included were proposed guidelines for dealing with students who are suspected of using or selling illegal substances.

EDITORIAL COMMENTS:

"There are more things to admire about men than to despise." Those who have read The Plague in World Literature may recognize the words of Dr. Rieux as he records his observations after the plague has ravaged the town of Oran.

Dr. Rieux's words are reassuring to me as I watch another senior class graduate Marple Newtown and think of the many plagues that have ravaged our school; vandalism, lassitude, wholesale absenteeism. While these plagues were infecting our atmosphere, at the same time over 160 seniors (taking an audience count on senior awards night) out of 650 or so in the class actively participated in the running of the school. Hearing the warm tributes of the sponsors to those who worked for their organizations, and, conversely, the royal, spectacular farewell of appreciation according to Mr. Petterman, I can only count the many things that can be admired and weigh them positively against those to despise.

A newspaper's job is to print the news. News often reflects the negative side of life as happy events don't make headlines. We on the Mar News staff have been doing our job in reporting the incidents that occur at the school along with the many happy events that occur and, unfortunately, often go unsupported (the rock concerts, the entertainment groups, fund-raising events for the class.) I am hoping that in the future we will feature articles about other domino kings that arise and students who extend themselves beyond the realm.

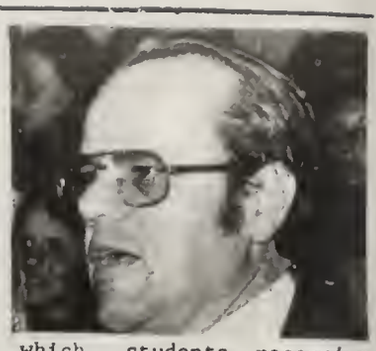
I know that the staff that has worked for me has extended itself beyond measure; it is hard for anyone not connected with the staff to realize the work involved in publishing a bi-weekly newspaper within the school on presses made for hand-bills; on selling advertising to businessmen hard-hit by the economic slump, at the same time paying twice as much for newspaper. Cindy and Sherri battled these elements all year, ably boosted around the clock by our business manager and major-dome par excellence, Sara Schorsch. Missy and Mike valiantly tried to give equal time to all sports, never satisfying everyone but overseeing the writing of excellent articles. Mary and Ken initiated the policy of staff editorials and mini-torials which received wide reaction and Melody led a staff of writers, trying to make journalists out of all of them. Junior members who have assumed the leadership roles for next year ably assisted them. With Rob getting the ads and Ron attempting to take pictures and Mike and Chris slaving far into the night, busbying these presses along, each year we will have more students to admire and to thank.

Miriam Bedein

This year is gone. It has been a rewarding one; it has been a difficult one.

One of the factors which contributed to a rather difficult year revolves aroune the word "responsibilities". We hear much talk about rights and responsibilities. Even if the balance between rights and responsibilities were better, the words betray an imbalance. "Rights" are enforceable; "responsibilities" are not. Perhaps the word "responsibilities" is the problem. Would not "obligations" be more meaningful?

Perhaps developing a list of student obligations developed by students, parents, teachers, and administrators would be an initial approach. Such obligations should be clear and unequivocal in their language. This would not be a difficult procedure. The real difficulty lies with developing a workable process by



which students recognize and determine their obligations.

During the coming summer, I plan to meet with parents, students and teachers to develop a list of obligations on the part of all, for school and parental obligations are equally as important.

I would also like to take this opportunity to congratulate our seniors and wish them well. To all, may I wish a happy and enjoyable summer.

William C. Capriotti

Letters to the Editor

Dear Editor;

The closer it gets to the end of the year, the more I wonder why the administration does not find something worthwhile to do with its time.

For example, look at all of the time it spends on the collection, prosessing and redistribution of "cut-slips." Then it pulls students out of class because some teacher wrote a wrong name or date or just plain messed up. If you are going to cut a class, it should be between you and the teacher.

If I can go to class one day a week and get a grade that satisfies me, why do I have to go the other four days.

Another example, I recently heard was of an administrator who stopped a girl who was setting up a table for an after school sale and asked her if she had permission. Finally, she got it, but only after a waste of time. They had only been putting the same table in the same place, for the same sale, for atleast three years. Way to be on the ball, boys!

Why, instead of this idiocy, doesn't the administration devise a useful curriculum? This would at least provide some incentive to go to class instead of an incentive to get out and stay out.

DOCTORS RUN SCHOOL

Superintendent Glenn Sanner and Assistant Principal James Shafer have received their doctorates at Temple University's graduating ceremonies on May 29, in Educational Administration, and Curriculum Development and Instruction respectively.

Sanner has been working toward his doctorate since 1968. Shafer has been studying since 1969. Both attend night school.

"The degree has not changed my plans or my relationship with MN. My job is tiring and demanding but rewarding." Sanner said.

Shafer has other plans. "With this doctorate there are more and better possibilities."

Tom Wilson (1) and Jeff Caruthers are just two of the stars the MN track team had this year. Find out what they did by turning to page four.

CAPRIOTTI TAKES LEAVE

To complete his doctorate on negotiations between School Board and teachers, Principal William C. Capriotti will take a sabbatical leave next year at Temple University.

Capriotti will leave MN in September and return shortly before Christmas vacation. He will be replaced by either Assistant Principal James Best or James Shafer.

Capriotti has been teaching in the Marple Newtown School District for 15 years.

Three Marple Newtown teachers, Marv Lee DeWitt, Phil Stauffer, and Paul J. Dobransky, will take sabbaticals next year.

French teacher DeWitt will travel through Mexico, France, Morroco, Algeria, Quebec, New Orleans and other French speaking areas.

Stauffer, a member of MN's Drafting and Architectural Design faculty, will spend his fifteen-month sabbatical camping with his family in Florida and California.

Dobransky, a nineteen year member of MN Math Department, will tour Czechoslavakia, Russia and the United States.

MN's undefeated record shattering 880 relay team, left to right second row: anchor Steve Michael, Coach Fred McKonly, Paul Sperry. First row: Mike Hanacek and Bob Royston. The relay broke the record by 2 1/2 seconds at 1:30.9.

Tigers' Record Belies Impressive Season

Sometimes records are deceiving. That is certainly true about this year's trach team. They ended with a 4-4 log but the season was anything but mediocre.

To begin with, six school records fell this year--high, triple, and long jump to senior Jeff Carruthers, two-mile to James Clelland, 330-yard hurdles to Dave Chaudet, and the 880-yard relay to the team of Bob Royston, Mike Hanacek, Paul Sperry, and Steve Michaels (Steve also tied the 100-yard mark.) Those seven-plus pole vaulters Tom Wilson and miler Bruce Reminger all qualified for the District Track Championships. Of those nine, two boys, vaulter Wilson and jumper Carruthers, made it to the States-- the ultimate in honors.

Marple looked impressive at the Chester Relays this year and captured fourth in the county at the Delco Championships--only behind powerhouses Chester, Ridley, and Bonner. MN's mile relay of Doug Alkema, Mike Hanacek, Paul Sperry, and Glenn Theil gave a representative run for the money at the Penn Relays.

MN had two undefeated, Central League Champions this year: Carruthers in the long and triple jump and the aforementioned 880 relay team. T is years captains were Carruthers and senior miler Steve Hamilton Besides these two, next Steve Poulton, Glenn Theil, Randy Cooper, Rob Fertel, Bruce Rkminger, Tom Laureson and Sam Zuckerman. This years coaches were Mr. McKonly and Mr. Kenig.

Basemen Bumble Through Season

Incosistency and consistency have ruled the Varsity baseball Tigers this year. On a game to game basis one did not know what to expect. When the Tigers took the lead in a game, they would dominate, but on the other hand, when they fell behind they would stay behind. The team's peak this year came during a three game win streak where everyone on the squad was alive.

Pitching aces Joe DeFelice and Greg Salata have had their moments as each has had one standout performance. Bill Muldowney and Pete Bartlett have been the most consistant in hitting and fielding as they have come through in the clutch often this year. When looking for the big bat, the Tigers have turned to Scott McDonald who has hit some nice shots. Kenny Gallagher played the best game of the season with three hits, including two triples, and played some very decent defense. The Tigers 4-8 record pretty sums up a disappointing season.

Schmidt writes article

Mathematics teacher, football and basketball coach James Schmidt wrote an article that recently appeared in Scholastic Coach Magazine on Marple Newtown basketball defense strategy.

The plan described in the article is Schmidt's own defense strategy which, according to Schmidt, looks like a zone defense, but works like man-to-man." It has been used successfully by the MN basketball team to confuse opponents.

The article took Schmidt several months to write, and he is currently planning another about basketball offense. He expects his accepted article on defense to appear in the September or October issue of Scholastic Coach.

GIRLS SPLIT SEASON

MN's running Tigresses end their season with a record of 3-3-1, ranking second in the Central League standings.

MN won all their away meets this season except with Upper Darby, which ended in a 48-48 deadlock.

The Tigresses were downed in all their home meets with Lower Merion, Springfield, and Haverford.

This year's Tri-Cap- were Sandy Federici, Sara Dalton, and Diane Carrelli.

Mrs. Agnes Speer, Coach of the Girls' Taack team, feels the team has the potential to be the Central League Champions next year.
